Latin America & Caribbean	3.63%

[†] The fund invests substantially all of its assets in securities of Templeton Global Smaller Companies Fund. The above investments are those held by the underlying fund.

How risky is it?

The value of the fund can go down as well as up. You could lose money. One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

Risk rating

Franklin Templeton has rated the volatility of this fund as **medium to high**.

This rating is based on how much the fund's returns have changed from year to year. It doesn't tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, see the Investment risk classification methodology section of the fund's simplified prospectus.

No guarantees

Like most mutual funds, this fund doesn't have any guarantees. You may not get back the amount of money you invest.

How has the fund performed?

This section tells you how Series F securities of the fund have performed over the past 10 years. Returns are after expenses have been deducted. These expenses reduce the series' returns.

YEAR-BY-YEAR RETURNS

This chart shows how Series F securities of the fund have performed in each of the past 10 years. The series dropped in value in 2 of the 10 years. The range of returns and change from year to year can help you assess how risky the fund has been in the past. It does not tell you how the fund will perform in the future.

BEST and WORST 3-MONTH RETURNS

	Return	3 months ended	If you invested \$1,000 at the beginning of the period
Best return	35.1%	June 30, 2009	Your investment would rise to \$1,351.
Worst return	-33.6%	November 30, 2008	Your investment would drop to \$664.

AVERAGE RETURN

The annual compounded return of Series F securities of the fund was 7.26% over the past 10 years. If you had invested \$1,000 in the fund 10 years ago, your investment would be now worth \$2,015.

Who is this fund for?

Investors who:

- want to access the above average capital gain potential of a smaller companies fund on its own or as a small part of a more conservative portfolio to be held outside a registered plan
- invest for the long term
- are very comfortable with the ups and downs of the stock market

This fund is focused on capital appreciation. It is not intended for investors who need a steady source of income from their investment.

This series is also available in U.S. dollars.

Series F securities are only available to investors approved by Franklin Templeton for whom Franklin Templeton does not incur distribution costs.

A word about tax

In general, you pay income tax on your share of the fund's earnings and on any gains you realize from redeeming your investment. The amount of tax depends on the tax rules and rates that apply to you, and whether you hold the fund in a registered plan, such as an RRSP or TFSA.

If you hold the fund in a non-registered account, we send a tax slip that shows your share of the fund's earnings. You must calculate your gains on redemption.

Investors switching between Corporate Class Funds will trigger a capital gain or loss at the time of the switch.

How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Series F securities of the fund. The fees and expenses – including any commissions – can vary among series of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other series, funds and investments that may be suitable for you at a lower cost.

1. SALES CHARGES

There are no sales charges for Series F securities of the fund.

2. FUND EXPENSES

You don't pay these expenses directly. They affect you because they reduce the series' returns. As of December 31, 2017, the expenses of Series F were 1.62% of the value of this series. This equals \$16.20 for every \$1,000 invested.

	Annual rate (as a % of the series' value)
Management expense ratio (MER)	1.53%
This is the total of the management fee (including trailing commission), fixed administration fee and any operating expenses not covered by the fixed administration fee. Franklin Templeton waived some of the expenses for this series. If it had not done so, the MER would have been higher.	
Trading expense ratio (TER)	0.09%
These are the fund's trading costs for this series.	
Series Expenses	1.62%

More about the trailing commission

No trailing commission is paid by Franklin Templeton to your representative's firm in respect of Series F securities. Please see "Representative's Firm Fees" below.

3. OTHER FEES

You may have to pay other fees when you buy, hold, sell or switch securities of the fund.

Fee	What you pay
Representative's Firm Fees	No trailing commission is paid by Franklin Templeton to your representative's firm in respect of this series. Instead, you may buy and hold this series of securities in a fee-based account at your representative's firm. If you hold your securities in a fee-based account, you negotiate the fee and pay it directly to your representative's firm.
Investment advisory services fee*	If you do not hold this series of securities in a fee-based account at your representative's firm, you may buy this series by opting into our investment advisory services fee option. If this option is chosen by you, Franklin Templeton will collect the fee (plus any applicable taxes) from you on behalf of your representative's firm by redeeming securities of this series of the fund in your account and remitting the amount to your representative's firm. With this fee option, the maximum annual investment advisory services fee that we collect on behalf of your representative's firm is 1.50%.
Switch fee	Up to 2% of the value of the switched securities. You negotiate this amount with, and pay it to, your representative's firm. A switch from Series F securities of the fund to Series F securities of another fund will not be subject to switch fees. Your representative's firm may charge you a switch fee for switches from Series F to any other series.

* The effective date of availability of this purchase fee option is October 1, 2018.

What if I change my mind?

Under the securities law in some provinces and territories, you have the right to:

- withdraw from an agreement to buy mutual fund securities within two business days after you receive a simplified prospectus or Fund Facts document, or
- cancel your purchase within 48 hours after you receive confirmation of the purchase.

In some provinces and territories, you will also have the right to cancel a purchase, or in some jurisdictions, claim damages, if the simplified prospectus, annual information form, Fund Facts document or financial statements contain a misrepresentation. You must act within the time limit set by the securities law in your province or territory.

For more information, see the securities law of your province or territory or ask a lawyer.

For more information

Contact Franklin Templeton or your representative for a copy of the fund's simplified prospectus and other disclosure documents. These documents and the Fund Facts make up the fund's legal documents.
